Rain, Cold Weather Ruin Resort Business Over Double Holiday

Rain and cold weather played havoc with the resort business in the Chain of Lakes area Saturday and Sunday but the sun came out Memorial Day in time to make the day a delightful one for parades and services honoring the dead.

Many persons who came out from Chicago to unheated lake cottages Saturday returned Sunday and did not remain for Memorial Day.

It was the worst Memorial Day business in five years or more according to those who operated picnic grounds and beaches.

This situation prevailed everywhere and the result was that traffic was heaviest on Sunday rather than on Monday.

Horrors of War Insure Advocates of Peace in Opinion of Major Mawn

Memorial Day Speaker Addresses Crowd After Big Parade of Thirty Units

"Those who have seen the horrors of war are strongest for peace, and among them would be those who gave their lives for the cause of freedom," Major Peter J. Mawn of Fort Sheridan told a Memorial Day crowd in Antioch Monday afternoon.

Major Mawn quoted freely from Lincoln's Gettysburg address in appealing to the people to revere the memory of those who had given their lives in battle.

The speech was a part of a program at the village park which followed a parade.

With members of both the American Legion and Veterans of Foreign Wars forming the color guard and firing squad the colors headed the parade from the high school to the park. Music was furnished by the high school band and 30 units were represented. There were many scout troops this year, and the patriotic and civic groups made an impressive sight. Ed Jahneke served as parade marshal.

The program at the platform opened with the invocation by the Rev. Howard Benson of the Methodist church. Robert Duha served as master of ceremonies and introduced the heads of the patriotic groups—Mrs. Dorothy Horan, president of the Legion Auxiliary; Mrs. Lillian Burnette, president of the V. F. W. Auxiliary; Cmdr. Dan Lightsey of the Legion and Cmdr. Robert Strang of the V. F. W.

Gold Star mothers introduced were Mrs. Nellie Hanke and Mrs. Myra Randall.

Mayor James McMillen gave a short talk after which Duha introduced Major Mawn. The speeches were interspersed with numbers by the high school band.

After the benediction by Fr. Alfred J. Henderson of St. Peter's church a salute was fired and taps sounded by W. V. Lahti.

The weather was ideal for the parade and program.

Horrors of War Insure Advocates of Peace in Opinion of Major Mawn

Memorial Day Speaker Addresses Crowd After Big Parade of Thirty Units

"Those who have seen the horrors of war are strongest for peace, and among them would be those who gave their lives for the cause of freedom," Major Peter J. Mawn of Fort Sheridan told a Memorial Day crowd in Antioch Monday afternoon.

Major Mawn quoted freely from Lincoln's Gettysburg address in appealing to the people to revere the memory of those who had given their lives in battle.

The speech was a part of a program at the village park which followed a parade.

With members of both the American Legion and Veterans of Foreign Wars forming the color guard and firing squad the colors headed the parade from the high school to the park. Music was furnished by the high school band and 30 units were represented. There were many scout troops this year, and the patriotic and civic groups made an impressive sight. Ed Jahneke served as parade marshal.

The program at the platform opened with the invocation by the Rev. Howard Benson of the Methodist church. Robert Duha served as master of ceremonies and introduced the heads of the patriotic groups—Mrs. Dorothy Horan, president of the Legion Auxiliary; Mrs. Lillian Burnette, president of the V. F. W. Auxiliary; Cmdr. Dan Lightsey of the Legion and Cmdr. Robert Strang of the V. F. W.

Gold Star mothers introduced were Mrs. Nellie Hanke and Mrs. Myra Randall.

Mayor James McMillen gave a short talk after which Duha introduced Major Mawn. The speeches were interspersed with numbers by the high school band.

After the benediction by Fr. Alfred J. Henderson of St. Peter's church a salute was fired and taps sounded by W. V. Lahti.

The weather was ideal for the parade and program.

The girl was carried unconscious into the office of an Antioch physician early Saturday and did not regain consciousness until Tuesday when she furnished officers with information that led to the charges.

She told State's Atty. Robert C. Nelson and Deputy Sheriff Charles Larson that Edwards and Lockman both attacked her in Anderson's car after Anderson and Edwards picked her up at her farm home early Friday evening.

The boys were have said to have driven her around in the car for several hours hoping for her recovery of consciousness before they took her to a doctor.

The charges filed in a lower court will go over for grand jury investigation if the preliminary hearing warrants.

Wife of Former Antioch Resident Ends Life in Car at Deerfield Home

Mrs. Matilda Sheehan, 56, Deerfield, wife of School Supt. William E. Sheehan of that village, formerly of Antioch, was found dead Monday afternoon in a gas-filled auto at the family garage. A hose led from the exhaust pipe into the car.

Mrs. Sheehan had been despondent recently because of poor health. She left the house Monday afternoon leaving an unfinished letter to her sister, and it was presumed she was attending a Memorial Day service. She was found about 4 p. m. and taken to a Highland Park hospital, but could not be revived.

The funeral service was held privately yesterday afternoon. In addition to the husband she leaves a son, Pfc. Neill at Fort Sill, Okla., a brother, Edward Sandman of Lake Zurich; and a sister, Mrs. Amanda Stratford of Glendale, Cal.

Seventy-nine seniors, the largest class in the history of the high school, will receive their diplomas tonight.

Dr. Beryl D. Orris, professional lecturer from Chicago, will give the address and according to his reputation it will be a good one.

The baccalaureate address was given Sunday by the Rev. Edmond Hood of St. Ignatius' Episcopal church. Using as his subject "Society's Growing Cancer," he likened the graduates to new cells in society and said that if they pursued a greedy self-centered path without regard to that body in which they live, they, like cancer cells, would meet their own self-made destruction.

A total of 437 awards will be announced tomorrow in all phases of school activity. They will be made as follows:

O. I. Onstad, school medals and Boys State for the American Legion; Mrs. Eva Gaylord, Girls State for the Legion Auxiliary; Mrs. M. M. Chicago Man Drowns In Loon Lake When He Fell From Boat

Four Other Chicago Men Drown in Fox Lake Saturday and Sunday

Frank J. Verschuere, 47, of N. Richmond ave., Chicago, was drowned in Loon lake shortly after noon yesterday while fishing.

A companion who was identified only as another Chicago resident, said Verschuere leaped over the boat and lost his balance. He sank immediately.

The body was recovered about an hour later at 1:30 p. m. by the Antioch Rescue squad. It was removed to the Strang Funeral home and from there will be taken to Chicago for burial.

This is the fifth death from drowning in Lake County during the past week.

Four were drowned over the week end at Fox Lake. The situations were identical in that in both instances three men were in a boat fishing when the boat overturned and two of the three drowned. They were all Chicago residents.

Both accidents occurred at the same place, Illinois State Beach Park, the first taking place shortly after noon Saturday and the second at 8 a. m. Sunday.

Evanston Architect Engaged as Consultant For Lions Swim Pool

Louis B. Walton, Jr., of the architect firm of Walton and Walton, Evanston, Ill., has been employed by the Lions Swimming Pool committee to serve as architect and consultant in the construction of the new Antioch pool.

"Walton is highly recommended," said Dr. G. W. Jensen, chairman of the committee. "He supervised the building of the pools at Palatine, the Tower Cabana club at Kedzie and Peterson sts. in Chicago, and the Edgewater Beach Hotel pool."

Chairman Jensen said that the land in the park will be surveyed and a bond sale drive planned after the return of members of the committee from a fishing trip.

"It will take about two weeks to get this fishing fever out of our systems and then we will go to work," said Jensen.

The architect probably will be asked to call for bids on two types of pools, one of which probably will be a prefabricated one.

Economic Highlights

In April the Department of Agriculture published a booklet which represents more than a year of study and preparation. It is entitled "Development of Agriculture's Human Resources—A Report on Problems of Low-Income Farmers." Its importance is spotlighted in a letter written by President Eisenhower to Congress: "In this wealthiest of nations where per capita income is the highest in the world, more than one-fourth of the families who live on American farms still have cash incomes of less than \$1,000 a year. They neither share fully in our economic and social progress nor contribute as much as they would like and can contribute to the nation's production of goods and services. . . . We must open wider the doors of opportunity to our 1,500,000 farm families with extremely low incomes—for their own well being and for the good of our country and all our people."

In submitting the report to the President, Secretary of Agriculture Benson recommended the launching of pilot operations in not less than 50 of the 1,000 low-income counties during the coming fiscal year. He then described a 15-point program which is to be followed, with the proper balance among the various elements involved to be determined by the special circumstances of each area.

These points include: Expand and adapt agricultural extension work to meet the needs of low-income and part-time farmers. Develop needed research in farm and home management, marketing, nutrition, etc. Increase technical assistance, such as that provided by the Soil Conservation Service, to low-income farmers. Encourage the states to expand vocational training in rural areas of low income. Request the Department of Labor to strengthen the Employment Service in rural areas and further adapt it to the needs of rural people. Encourage the expansion of industry in the rural low-income areas. Enlist the aid of the State agricultural colleges in conducting research and in other ways. Aggressively encourage farm, business, and other leadership to assume local responsibility and to unite in efforts to aid in the development of agriculture's human resources. The Secretary also said that Congress will be asked for a \$30,000,000 appropriation for the Farmers Home Administration to launch the program.

It is clear, as the President said in his letter to Congress, that the program recognizes that this is not exclusively an agricultural problem but that opportunities for off-farm employment are a part of the solution. Most of the low-income farmers live on small, unproductive farms of a marginal or worn-out nature. To many observers, one of the most important needs is to encourage large numbers of these people to take productive jobs in factories. Actually, over the years, much of the increase in our industrial

labor force has come in this fashion.

There is still another reason why this would be good for the whole country as well as for the farm families concerned. Most economists believe that we will experience a labor shortage for 20 years or more. The low-income farm group is one of the few available or potential reservoirs of manpower left.

Grass Roots Opinions

EMPORIA, KAN., GAZETTE: "In this great land of the free and home of the sucker there always is the desire to get something 'at wholesale.' Recently many Kansas towns have been flooded with so-called 'wholesale' catalogs. . . . These 'wholesale' houses . . . are . . . trying to bamboozle the public into thinking they are offering something for nothing. You get just what you pay for. . . . Moreover the merchandise is likely to be cheap seconds."

NASHVILLE, ARK., NEWS: "The Chattanooga Times . . . showed that Tennessee since TVA has skidded in population, farm production, retail sales, payrolls, manufacturing output, where her neighbors without the burden of such fraud, have pushed ahead in economics. In effect, socialism damns the giver and the taker."

DILLON, S. C., HERALD: "Karl Marx has been dead nearly 75 years, but his warped mind and irregular life are responsible for many of the ills that have afflicted the world for the past half century. His false teachings have cost millions of lives."

MANHEIM, PA., SENTINEL: "It would be a great blessing to humanity and to civilization if governments were under the same compulsion to cut costs as is private enterprise. No matter how large a private business becomes, it is faced with oblivion the moment management becomes lax and inefficient."

The Low Down From Hickory Grove

You know, the way private business is being elbowed off the sidewalk—in all kinds of places—is making it more and more dubious for the young fellow with ambition. You are not enjoying any kind of 100 per cent freedom when you find more and more roads closed to you. I been readin' about gas—not the talkin' kind—gas for your heat and cooking, etc. It is a tricky business—this gas prospecting and production. And now with restrictions put on the business by a Federal Board, we have another item to cramp the style of the young man with a pioneering spirit.

Regulation of rates for electricity and water and gas and phones by the State is now protecting the public. But when the Big Govt. steps in, the States take a back seat—play second fiddle. If Federal control becomes more oppressive, prospectors will just hang up the fiddle and the bow and get into something less tricky and risky than finding a gas well and then discovering Sambo standing there and telling him, "Bub, I'll tell you how much to open the valve." Gas can become scarce—then what?

The gas business was hittin' on all eight until the Court found a couple commas in the wrong place and said "hold it boys." And now, gas finding runs into another road block. Congress can fix it—I reckon it will, but it should cut out the dilly-dally—show some speed—show it is earning its salt.

Yours with the low down, JO SERRA

Tired of Unsightly Walls? Plastr-Tone Is Answer

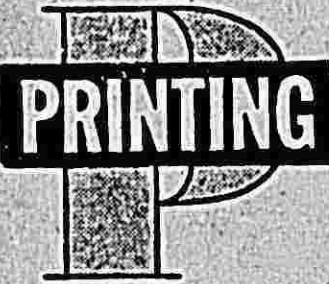

When paint isn't the answer Plastr-Tone is. While ordinary paint accentuates cracks and ugly breaks in walls, Plastr-Tone hides and effectively camouflages those unsightly blemishes, because only Plastr-Tone imparts a new textured surface while you re-color your favorite rooms.

Plastr-Tone is that new, simple-to-apply miracle product which actually plasters as you paint. You roll it on, or brush it. Handle it like paint but just watch it re-surface, repair and re-color all in one operation. Comes in fifteen ready-mixed colors and white. Perfect for every room in the house, it can be applied by anyone. It's so durable, and economical, too.

You'll be looking at more celluloid on your TV screen as time goes on. It is safer, easier and more profitable to put programs on film, and the commercials, too, before televising them. Television used twice as much film in 1954 as the nation's theatres. About one-third of your TV programming is on film now, and it is increasing rapidly.

A new film, Tri-X, is making camera work possible in low illumination which makes sharper pictures for TV programming. Actors like the film idea, too, because they make more money on features being re-run many times. Some producers think that life-shows will become almost obsolete in years to come.

One of the greatest advantages of films is that bad sequences and actions can be edited or cut out. You will have perfect programming. And to have perfect viewing we want you to try COURTESY TV for your next TV servicing date. Phone Antioch 144 and notice the difference.

Miss Janet Bunkelman Bride of James Ward

Miss Janet Bunkelman, eldest daughter of Mr. and Mrs. Lester Bunkelman of Lake Villa and Mr. James Ward, son of Mr. and Mrs. John Ward of Fond du Lac, Wis., were united in marriage on Saturday, May 28, in the Church of Presentation at Fond du Lac, with the Rev. Paul Nieshar performing the double ring ceremony. Special music was played by Cathy McKelvie, niece of the bridegroom.

Mrs. John Treleven, sister of the groom, was matron of honor, and her husband attended the groom. Miss Carol Bunkelman, sister of the bride, and Miss Barbara Brazier, her cousin were bridesmaids. Fred Penn, Pat Ryan, Raymond Kath and Robert Ward ushered.

The bride's gown was of lace and net, featuring a low, lace applique trimmed neckline, tapered long sleeves, and bouffant net skirt ending in a long train. A seed pearl and sequin trimmed half hat held her fingertip veil of illusion, and her bouquet was a white orchid and stephanotis. She was given in marriage by her father.

The matron of honor wore an ice-blue gown of embroidered net with bolero and full skirt and side panels of accordion pleated net. The bridesmaids' gowns were similar in bonbon pink with horsehair tiaras trimmed with flowers matching their dresses. They carried colonial bouquets of carnations and roses in harmonizing colors.

Breakfast for 45 guests was served at the Hobnob, where the reception was held later. Following a wedding trip through Iowa and Minnesota, the newlyweds will make their home at 90 South st., in Fond du Lac. The bridegroom is employed as brakeman on the Chicago and North Western railway.

Besides Mr. and Mrs. Bunkelman and daughters, Carol and Joan, Mr. and Mrs. Harry Pavel and Mr. and Mrs. John Fath of Lake Villa also attended the wedding.

Present Farewell Gifts To Catherine Trowbridge For Girl Scout Service

For the past 16 years Mrs. Catherine Trowbridge of Grayslake, has been helping to organize and further Girl Scouting in the Lakeside Council Area. When she recently announced that her family had decided to sell their home in Grayslake and move to Cape Cod, Mass., it seemed most fitting that many of her friends and associates in Scouting should get together to show her their appreciation during the past and to let her know she will be greatly missed.

Some 40 women were present and surprised Mrs. Trowbridge when she arrived at the Lake Region Post hall in Fox Lake Monday night, May 23. She was presented a two piece set of luggage, a Thank You medal, and a gold Girl Scout pin. Later, everyone enjoyed some of the beautifully decorated cake served in her honor.

During some reminiscing by Mrs. Trowbridge, Mrs. A. H. Kaufmann of Antioch, Mrs. Ellis Klipp of Grayslake, Mrs. Anders Nordling of Lake Villa, and Mrs. Theodore Owens of Fox Lake, it was learned that at first this area was a member of the Mundelein Council. As troops increased year after year Mrs. Trowbridge came to realize the size of the area warranted its own Council, and in 1947 the Lakeside Girl Scout Council evolved with Mrs. Trowbridge as its first president. At first, only Grayslake, Round Lake and Antioch were members. Later Lake Villa, Gages Lake and the Fox Lake Area joined, with the remainder close behind. In 1947 there were about 100 girls in Scouting in this area, and today there are 956 scouts.

For Mrs. Trowbridge there have been many satisfactions in Scouting, but in particular the many friends she has made, and the thrill of being a part of this tremendous growth and expansion in such a fine organization.

Newly elected officers for the Round Lake area include Mrs. Helen Teasdale, president, Mrs. Helene Keeler, Secretary, and Mrs. Phyllis Schmidt, treasurer.

A committee headed by Mrs. Dorothy Halla was appointed to investigate needs and costs of camping equipment, and to order the equipment. Money for this project had recently been raised at a benefit show held at the Holiday Theatre in Round Lake Park.

Mr. and Mrs. George Tuck of Indian Point and granddaughter, Bonnie, left Antioch Wednesday for Arcadia, Calif., where they will visit their son Richard and family and attend graduation exercises of their granddaughter, "Diane." After a visit in California they plan a trip to Colorado, Yellowstone Park, the Black Hills and other points of interest before returning home.

Dollar's Buying Power Stabilized For Three Years

NEW YORK—Spearheading their efforts with a high rate of personal saving and record production, the American people have scored an outstanding success in their drive to restore stability to the dollar's buying power after more than a decade of erosion.

Figures show that the Consumer Price Index compiled by the U.S. Bureau of Labor Statistics, popularly known as the cost of living index, has varied only around 2 per cent for more than three years—from the end of 1951 to date. This is an unusually narrow range for so long a period of time. Price records of the past going back to the early part of the last century produce few parallels of such stability in the consumer's dollar for any comparable period.

Stability does not mean rigidity in a free society. Individual components for the cost of living index have shown independent movements since 1952, as they have before and undoubtedly always will. Some like housing and medical care have continued to go up. However, others like food and apparel have declined enough so that the net effect of the 1952-55 changes in living costs on the consumer pocketbook and family budget has been unusually small.

As it is, the dollar's buying power today is down to around 52 cents compared with what it was in 1939 as the result of the inflation in the intervening period. The dollar currently will buy less than a third of what it would at the turn of the century, according to the records.

Former Boxing Champ K O'd by Teenagers

KANSAS CITY—Scores of teen-aged girls provided Barney Ross, former welterweight boxing champion with a sensation he never experienced in his long ring career.

Ross, now advanced agent for singer Eddie Fisher, was riding in an automobile with Fisher and others when the car stopped in front of the Hotel Muehlebach. The crowd of teen-agers, mostly girls, swarmed through police lines and upon the party.

Ross and Marvin Katz, a drug-store executive, were knocked down. A member of the party said Ross was knocked unconscious. He was revived quickly and treated for bruises. His clothing was torn during the incident.

Ancient Beer No Good
LONDON — Bottles of beer believed to have bobbed up from the hulk of a British supply ship that sank 250 years ago were washed ashore recently on the Kent coast.

London archeologist Ivor Noel-Hume said the beer had not improved with age. People who have tried it say it is horrible, he added.

Tuftonic is a new carpet-making process developed by C. H. Masland and Sons which is opening a wide new design field for loop pile tufted broadloom floorcoverings.

Science Develops Super-Pure Metals

PITTSBURGH — Scientists at Westinghouse Research Laboratories are purifying titanium and other hard-to-get metals by imprisoning the molten metal inside a cage of its own making.

The process, called cage zone refining, uses a unique method to melt a bar of metal while it acts as its own crucible, thus preventing contamination from any containing vessel. Object of the process is to prepare super-pure metals.

When a bar of impure titanium is melted progressively from end to end, the iron tends to concentrate in the liquid titanium and remain there as the solid metal "freezes out" behind it. Thus the iron is "swept" to one end of the bar as the molten zone moves along.

Each time the process is repeated, more iron is carried to the end of the bar. This end then is cut off and discarded, leaving the rest of the titanium bar more pure. The heating is done electromagnetically by passing the bar through a coil which carries high-frequency alternating current.

Top Industry Wages To Aircraft Workers

NEW YORK—The average aircraft worker in the United States today earns \$953 more per year than he did in July, 1950, when the Korean war started.

And he earns \$728 more per year than the average U. S. manufacturing employee.

The aircraft worker's higher earnings resulting from wage increases granted by the industry in the past four years account for one-fifth of the industry's estimated \$3.54-billion payroll for 1954. (These figures do not include "fringe" benefits.)

The combination of increased wages and higher employment has resulted in a sharp rise in aircraft payroll dollars funneled into the national economy. With 264,400 persons employed at the outbreak of the Korean war, total monthly payroll for U. S. plane builders amounted to approximately \$76.5-million. Today with more than 803,000 employees, the industry's monthly payroll is approximately \$295.5-million.

Mrs. O. I. Onstad accompanied her son, Sheldon Cooper White to the West coast on his return to the new U. S. Coast Guard Air base at San Francisco from a 27 day furlough spent here. She will visit her niece, Mrs. Robert Greider in Redwood City, and her sisters, Mrs. Walter Bowe Cooper and Mrs. Gerald S. Brenzel of Los Angeles and LaJolla before flying home.

June Is Dairy Month

MILK COSTS YOU LESS: Above, Miss Reggie Dombeck steps on a "ladder of milk" to present the history of more milk for your money. In 1953, the average industrial worker's pay for an hour bought 7 1/2 qts. of home-delivered milk. In 1939, an hour's pay purchased only 5.2 qts. In 1929 — only 3.9 qts.

This year, milk is even cheaper. Daniel M. Dent, national chairman for June Dairy Month, says: "Milk and milk products are tops for taste, health, and economy."

Grooming Tools Need Washing

In the interest of health, neatness, and beauty, it's wise to gather family brushes and combs for a scrubbing at least every week or so. An easy, step-saving way is to collect them in a bag or basket during your morning bed-making rounds. You'll probably end your clean-up tour in the bathroom to put out fresh towels and straighten up after the morning rush. With beauty tools in hand, it's simple to put them in the basin for a hot sudsy bath.

Since soap and hot water have a disinfecting action, everything can be dunked together just like the family wash. Even though no one should use another's brush or comb, it's quite safe and much easier to wash these at the same time.

Don't neglect complexion, mascara, lipstick, or clothes brushes. Once in a while, persuade the menfolk to leave their pocket combs for a scrubbing and, of course, do all the combs from your own and other pocketbooks.

Washing is double-quick if you work with both hands—letting brush and comb work soapsuds into each other. When everything is clean-as-new, rinse in hot water and shake to remove the excess. Dry brushes with bristles down so that water drains from the tuft holes.

20/20 Vision Doesn't Indicate Perfect Eyesight

NEW YORK—It often comes as a shock to a middle-aged person when he finds he can no longer read small print at the ordinary reading distance. Oddly enough, he may still come up to the 20/20 standard even though he has to hold a book 18 inches or so away to read it.

The technical term for this difficulty of the 40-plus group is presbyopia. What happens is a perfectly normal development. The little lens within the eye loses its elasticity, while the ciliary muscle—whose job it is to change the shape of the lens for near or far vision—weakens. Consequently, the eye isn't so good at accommodating—or changing focus to see clearly at different distances.

But the 20/20 rating simply indicates the ability to perceive at a distance of 20 feet what normal vision sees at 20 feet. It's an inadequate standard, in that it tells nothing about the efficiency at near-point tasks. Many presbyopes still have 20/20 vision despite their waning power to distinguish details at close range. For when the eye is focused upon objects 20 feet or more away it is at rest and no accommodation is required.

Presbyopia usually begins around the age of 45, but the exact time varies within a few years. A delicate or nervous person generally experiences it sooner than a robust person. Race is a factor, too, for Indians and Africans succumb to it much younger than Americans or Europeans.

Fooling Flies Now Made Easier

BERKELEY, Calif.—Remember when fly killing was a simple procedure of hanging strips of fly paper to catch flies? Of course, you missed a lot of flies that way, and it didn't add much to the decor—but it was simple.

The fly paper method was a direct steal from Mother Nature. For instance, there's the carnivorous Sundew plant, which attracts flies to its shiny surface, then pulls them toward the center of the plant. Here they are trapped and enmeshed in a pool of sticky fluid.

Now scientists come up with a variation of Mother Nature's "lure 'em to death" principle. It's simplicity itself. All you do is walk around an area where flies are a problem and shake a granular fly-killing bait out of a canister.

What lures the flies to these innocent-looking granules is a new type of attractant far more enticing to flies than sugar-based formulas. The granules are the size that extensive fly-breeding studies show, flies like to pick up in their "fore-paws" and nibble. It's the nibbling that does it—for these granules are impregnated with malathion, a chemical that has a high rate of kill even for "resistant" flies.

Many Families Help Support Their Elders

MINNEAPOLIS — One middle-class American couple out of every seven partially or completely supports one or more aged relatives, according to a survey of 7,000 policyholder families.

Of the 7,000 families covered by the survey, 964 or 14 per cent reported that they were wholly or partially supporting older relatives, usually their parents.

Elderly mothers being so supported outnumber fathers by nearly four to one. The mothers' average age is 72; the fathers' is 74.

Average age of the heads of the 7,000 households covered by the survey is 40½ years. Average annual income of those supporting or helping support elderly relatives is \$8,008. Average income of those not contributing to the support of any older relative is \$6,271, the survey shows.

New Little Rich Boy Gives His Money Away

NEW YORK—Henry Morales, 7, was very popular the day he took \$3,940 to school with him. He began passing it out to his friends "because they were very nice to me."

Detectives found the boy philanthropist, his school bag crammed with money, in the center of an interested throng of pupils. At his home they found a frantic grandfather, who had come here from Puerto Rico recently with his nest egg, hoping to buy a little business.

Wrong Number

HARTFORD, Conn.—There's a Hartford telephone number you dial when you want to know the time. An automatic record tells you the time—unless it breaks down—the record, that is.

Apparently brooding over the change to daylight-saving time, the gadget blew a fuse and told everybody all day that it was 4:50.

Look what the new Air Conditioners do besides keep you cool

1 NEW FREEDOM FROM DIRT, DUST, POLLEN. The new air conditioners filter out dirt and soot from outside—remove up to 99% of the pollen—a real boon to allergy sufferers. Your home stays cleaner, healthier.

2 DRIES THE AIR AS IT COOLS. No more muggy discomfort this summer—all 1955 models remove the excess humidity that makes you feel sticky, miserable. You enjoy dry, cool air all summer long.

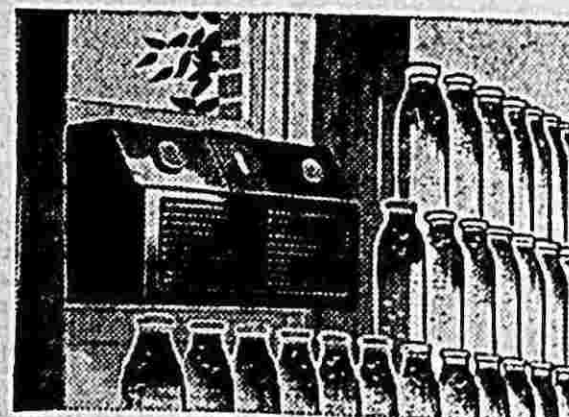

3 KEEPS OUTSIDE NOISES OUTSIDE. That's one of the benefits of air conditioning you'll really appreciate. No traffic or street noises to awaken you—and, the new air conditioners barely whisper as they work.

This summer more than 100,000 Chicago and Northern Illinois families will enjoy the wonderful comforts of an air conditioner.

And, as our pictures show, the new 1955 room air conditioners do lots more than just keep you cool. Certain makes even feature heating as well as cooling. (To take the chill off the room on a frosty morning.) There are models available now for virtually every type window, including casements.

But don't wait until the make or model you want is hard to get. See your dealer now and own a new room air conditioner for a few dollars down and as little as \$2.87 a week!

for this wide-open beauty

It's the new kind of hardtop—

The 4-Door Riviera!

A HARDTOP is a car that looks like a Convertible with the top up—but has a solid steel roof overhead—and no center posts in the side window areas.

Up until just recently, it could be built in volume only with two doors—not more—because it would take wholly new structural principles to hinge another set of doors without floor-to-roof center posts.

But Buick came up with those new structural principles and is now building—in volume—hardtops with four doors.

You see one pictured here. It's the 4-Door Riviera. And it's taking the country by storm...

Because here, at long last, is an automobile

with the sleek and sporty styling of a true hardtop—but with separate doors for rear-seat passengers, plus the added room of a full-size Buick Sedan.

On top of that, this beauty is all Buick—with the buoyant ride of Buick's all-coil springing—the wallowing might of Buick's record-high V8 power—the whip-quick getaway and sizable gas savings of Buick's spectacular Variable Pitch Dynaflo.*

And it's available in Buick's two lowest-priced Series—the budget-tagged 188-hp SPECIAL, and the high-performance 236-hp CENTURY, illustrated here.

Come visit us for a first-hand meeting with the 4-Door Riviera—and see how quickly and how easily the last word in automobiles can be yours.

*Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.

Wrestling Will Start Friday Night in Arena At Round Lake Park

The inaugural show of the 1955 wrestling season at Round Lake Park will bring eight of the best men in the industry to Lake County Stadium Friday night, June 3.

These are men who have created havoc for years in the nation's living rooms via hammerlocks and headlocks on television.

The headline match at Lake County Stadium will find 280-pound Don Leo Jonathan facing 300-pound Yukon Eric. The former is a Mormon giant from Salt Lake City, Utah, and the latter an Alaskan in bare feet. They're big enough to tumble down the ring on the first night.

In any case, patrons in the vicinity of Round Lake Park will have the initial thrill of the summer, with other top shows slated from week to week by Promoter Fred Kohler, who has been able to gather the strongest and most renowned muscle men of the ancient sport for shows in Chicago and Round Lake Park. Kohler is regarded as the No. 1 promoter in wrestling, the man largely responsible for the alliance of wrestling, and television.

Other bouts Friday are: a tag brawl with Benito Gardini and colorful Gypsy Joe meeting Cowboy

Bud Fisher and Polish Stanislaus Kolski, and a singleton involving Don de Cortez, the tough Spaniard, and Len Rossi, of New York. The first bout will begin at 8:30 p. m.

Deerfield Women Ask Status Quo Action on Brick Yard Stripping

An appeal has been made to Richard Hires, chairman of the Lake County Zoning committee asking that a status quo arrangement be made in regard to the 120 acres of land now being stripped by the National Brick Co. at Deerfield until a zoning can be established.

This would be done pending an appeal of the declaratory judgment case that favored the brick company to the Supreme Court of Illinois.

The appeal is made by a group of Deerfield women who say that an expert non-partisan land-planner should advise Lake county as to proper classification of the property.

The group is also concerned about the re-zoning of 11 acres for residential which they claim might not meet seepage tests for septic tanks.

The man who cheapens himself in public is sure to be marked down by his neighbors.
